

Stink Soup

Dad is making Stink Soup for dinner! Hooray! Let's help Dad make the stinkiest soup ever!

We all know that cheese is delicious, but did you also know that it can be stinky? Well... SOME people think so anyway. Dad decides to add chunks of Limburger cheese to the soup. He adds three chunks that weigh $1\frac{1}{5}$ pounds, $2\frac{1}{5}$ pounds and $1\frac{4}{5}$ pounds. How many pounds of cheese will Dad throw into the soup?

Durians are a spiky fruit from Asia. They smell like raw sewage and rotten onions. It's true! Dad knows that adding some cut up durian fruit to his soup is a good idea. A durian weighs 32 ounces. Dad puts $\frac{3}{4}$ of a durian into the soup. How many ounces of durian did Dad add to the soup?

Surströmming is a special kind of stinky Swedish fish. They are left for months to stew in their own bacteria before being put into a can. Dad puts some in the soup. It IS stink soup after all! Dad puts 22 cans of fish into the soup. Each can weighs $31\frac{1}{2}$ ounces. How much of this horrible food does dad put in the soup?

The soup is done! Dad is so proud he decides to share it with the neighbors. There are 225 cups of soup and 35 people living on our street. If we split it up evenly, how many cups of soup will each person get? Will any be left over?

Here... have some STINK SOUP!
